## 599900 FLAME RETARDANT NECK PROTECTION

**Non-Metal and Inherent Flame Retardant neck protection that provides good protection against exposure of Electric Arc. 50% recycled cotton. PFAS-free.**

The neck protection also prevents molten metal getting under the collar. It can be 'pulled' up and used as a balaclava which then gives protection to the ears and open skin/hair. To obtain protection to the front of the face, pull up the neck protection from the front. The neck protection can also be worn as a neckerchief and protects against cold.
